Education

Kalinga Institute of Industrial Technology (KIIT)
Computer Science and Engineering (CGPA: 8.62 / 10)

June 2024
Bhubaneswar, Odisha

Tilottama Secondary School
Senior Secondary (PCM)

April 2019
Yogikuti, Lumbini

Projects

Youtube Transcript Summarizer | github.com/ivipinyadav14/youtube-transcript-summarizer

- Collaborated in a group on a YouTube Transcript Summarizer project.
- Developed front-end using HTML, CSS, JavaScript and React.
- Tested and debugged front-end code for reliability.
- Achieved successful project outcome with valuable insights gained.

Responsive Portfolio Website | vipinyadav.vercel.app

- Developed a responsive portfolio website using HTML, Tailwind CSS, and JavaScript, showcasing proficiency in front-end web development technologies.
- Enhanced user engagement with custom designs crafting a visually appealing experience.
- Leveraged Tailwind CSS utility-first framework to streamline the styling process, ensuring consistency and scalability while maintaining code efficiency.
- Ensured seamless UX with intuitive navigation and delivering a consistent browsing experience across devices.

Tic-Tac-Toe Web Game | my-tictactoe-game-app.netlify.app

- Developed a Tic Tac Toe game using HTML, CSS, and JavaScript.
- Created an interactive user interface with CSS styling and JavaScript for functionality.
- Implemented game logic including player turns, win detection, and reset functionality.
- Had practical experience of web development and improved JavaScript skills for logic and interactivity.

Experience

Data Analytics Consulting Virtual Internship
KPMG-Forage

Aug 2023

- Had the opportunity to dive into data quality assessment, uncover valuable data insights, and even create dashboards using Tableau.
- Used tools like Microsoft Excel, and Tableau to complete the tasks.
- Had experience on Data Analytics skills like data cleaning, data visualization, and data management.
